

ChemLock On-Site Assessments and Assistance

How do you **assess security** at your facility?

Learn how to enhance your facility's security posture by requesting an on-site assessment via CISA's **ChemLock Program**.

Security Awareness Consultation

- ▶ Identify potentially dangerous chemicals and security risks.
- ▶ Identify current security measures.

Security Posture Assessment

- ▶ Assess your facility's current security posture and identify site-specific enhancements to improve your facility's cyber and physical security.

Security Planning Visit

- ▶ Develop or update a security plan tailored to your facility's unique circumstances and needs.

Chemical security **is** national security.

The Cybersecurity and Infrastructure Security Agency's (CISA) ChemLock program is a completely voluntary program that provides facilities that possess dangerous chemicals with no-cost services and tools to help them better understand the risks they face and improve their chemical security posture in a way that works for their business model.
